Welcome

The team at *amersham dental care* extends a warm welcome to you. Our dental team comprises of dentists, hygienists and a dental health educator. We also have an excellent team of dental nurses and receptionists and a dedicated practice manager.

At *amersham dental care* we offer a wide range of treatments to provide both adults and children with modern, up to date and high quality dentistry.

Our investment in continuing professional education, modern techniques and equipment in comfortable surroundings helps us to maintain a high standard of oral health care for you and your family. We aim to prevent dental disease rather than treat it later.

This leaflet will inform you more about our practice and us. If you have any additional enquiries please do not hesitate to ask. Also, please visit our website at www.amershamdentalcare.com

Your Smile

The most obvious and noticeable feature of any person is their smile. Therefore, our first concern is to make sure that all our patients have healthy, pain free teeth and gums. Regular "check ups" are important in order to monitor, maintain and care for your mouths. They allow us to detect problems early on and minimise the risk of trouble arising in the future.

Stress Free Dentistry

We understand how anxious some patients can get about visiting the dentist and we make every effort to help those patients overcome their fears. Our team will help to provide your care in a relaxed manner and in friendly surroundings.

A Safe Practice

At *amersham dental care* we follow recommended guidelines with regards to sterilisation of equipment and the prevention of cross infection. We take all the necessary precautions to safeguard both patients and staff.

Access

At *amersham dental care* we aim to provide treatment for those with disabilities. Please feel free to speak to us regarding your requirements and we will try to help.

Treatment

Part of providing a comprehensive programme for oral health means that we combine preventative, cosmetic and restorative treatments. Please see overleaf for full range of treatments.

Dentist with Special Interests

Dr Gaon has a special interest in Endodontics (root canal treatment) and completed his MSc at the University of Warwick in 2012. He is currently working towards his PhD and accepts referrals.

amersham dental care has now been made a Regional Centre for postgraduate endodontic students who are being mentored by Dr Gaon.

Payment Methods

We accept cash, cheques and major credit or debit cards.

Amersham Dental Plan

We are now very pleased to be able to offer a dental maintenance plan.

amersham dental care has been admitted to the British Dental Association's prestigious "Good Practice Scheme" and is registered with Care Quality Commission

Practice Philosophy

- Help to secure oral health for our patients.
- To provide high quality dental care in a relaxed modern environment.
- To use up to date techniques and materials and provide evidence based dentistry.
- To make your experience at *amersham dental care* as positive and reassuring as possible.
- Help to reduce dental phobia.
